

Overcome Accessibility Barriers with **VESTNER**

Residential Platform Lifts and Elevators

If it's getting difficult for you or a loved one to manoeuvre steps, stairs or changes in levels in the home, a platform lift may be the right solution.

Residential platform lifts and elevators provide an alternative to a costly move or major changes to living arrangements.

- Compact design for both indoor and outdoor settings.
- Range of models suitable for rises up to 4m.
- Limited site preparation - easy installation.
- New Zealand designed and manufactured by disability access specialists.
- Principal supplier to New Zealand's health and disability sector.

Vestner's series of residential platform lifts and elevators are designed for height rises up to 4 metres, making them an ideal solution for navigating any change in levels into and within the home.

Safety and Compliance

Designed to overcome accessibility barriers with client's needs and **safety** foremost, the Vestner lift series meet **compliance** requirements and New Zealand disability codes and recommendations.

Lifts have been certified for Access Equipment Safety and Structural Engineering Compliance by independent certifiers and are compliant with the relevant Building Codes.

Lifts have been issued with a Certificate of Plant Design Registration by WorkCover NSW Government.

| F. Car controls | N. Car gate |
| G. Landing call buttons | P. Under car barrier blind |
| H. Car support/hand rails | Q. Manufacturers plate |

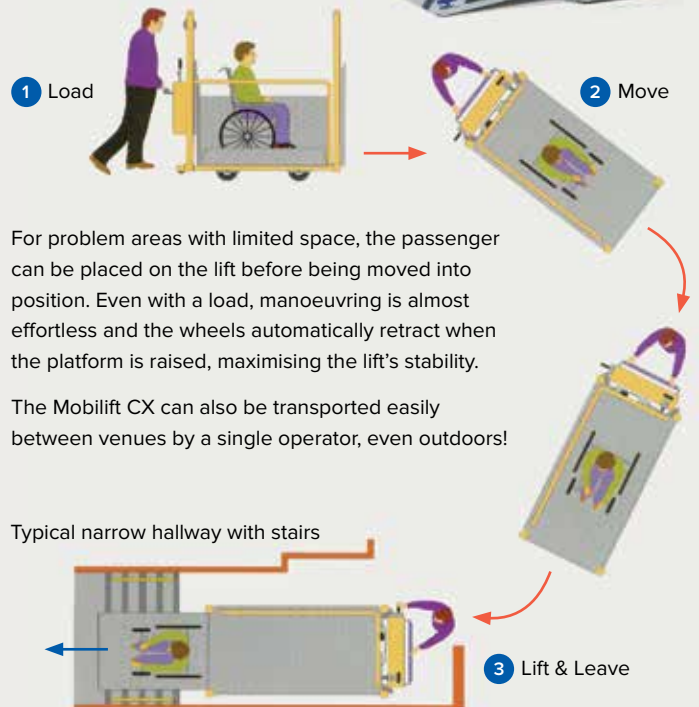

MOBILIFT CX

Portable Platform Lift

If a fixed lift is not suitable or the need is temporary, the Mobilift CX offers an easy to manage lift solution for people to access different levels in their home. It is easily moved between areas. No power source is required. Canadian designed and manufactured.

Vertical rise - max 1.5 metres.

- Compact design for both indoor and outdoor use.
- Manual operation, no power source required.
- Commercial or residential applications.
- Safe and easy to operate.
- For sale or hire.
- New Zealand's sole distributor.

For problem areas with limited space, the passenger can be placed on the lift before being moved into position. Even with a load, manoeuvring is almost effortless and the wheels automatically retract when the platform is raised, maximising the lift's stability.

The Mobilift CX can also be transported easily between venues by a single operator, even outdoors!

Typical narrow hallway with stairs
